DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following is required under 35 U.S.C. 121:
 - I. Claims 1-23 are drawn to modeling an information system having a structure, detecting activations at two or more nodes, after correlating these activations modifying the properties of a functional relationship in a functional model and modifying the structure of the system according to the modifications of the model, classified in class 703, subclass 13.
 - II. Claims 24-33 are drawn to a method optimizing a data cache, classified in class 707, subclass 2.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method to modeling an information system having a structure, detecting activations at two or more nodes, after correlating these activations modifying the properties of a functional relationship in a functional model and modifying the structure of the system according to the modifications of the model. Invention II allows for optimizing a data cache. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to William H. Dippert on September 30, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
